

INNOVATOR SUPPORT

Innovator Support is an Innovate Durban programme that runs throughout the year to support innovative startups, inventors, non-profits, civil servants, students, and existing small enterprises with new product or service development. It includes three services:

1. Innovator Support Connect to link innovative entrepreneurs to incubation and industry partners
2. Innovator Support Toolkit with lean startup advice and links to resources
3. A 5-month, after-hours Innovator Support training and mentoring programme which runs twice per year

The programme is open to any potential candidates including KZN-based startups, inventors, non-profits, civil servants, students, and existing small enterprises, with innovative ideas, initiatives, or business cases.
